

# FINAL CONFERENCE PROJECT INVOLVE

**3 June 2022.** Comisión Europea, Representación en España. Sala Europa. Paseo de la Castellana 46, Madrid

INVOLVE is a project funded by the DG Employment, Social Affairs and Inclusion of the European Commission (VS/2020/0145).

The project has two main research objectives. First it aims to analyse the degree of social partners' integration and participation in the governance of dual VET systems. Second, it aims to develop national scenarios on how to establish integrative governance structures of dual VET systems.

The project focuses on four countries that have recently developed projects of dual systems of VET or are attempting to strength, reinforce or improve dual VET systems, and represent models of industrial relations where social partners play a comparatively low institutionalised role in policy making, namely Spain, Greece and Portugal ('State centred' model) and Poland ('Mixed' or 'Transitional' model).

The final conference assembles all project partners and participants. In dialogue with key stakeholders from academics and social partners, the final conference shall give the floor to share, disseminate and critically assess INVOLVE findings.

**The conference will provide simultaneous interpretation into English, Greek, Polish, Portuguese and Spanish.**
